

DotWork Release Notes

Release Date: 9/20/2024

We are excited to announce the release of DotWork 3.1.0, packed with new features designed to enhance the experience for both tattoo studios and their clients. Here's what's new:

New Features:

- **DotWork Studio Listing:** Discover and explore a comprehensive listing of tattoo studios. Easily find the perfect studio that matches your style and preferences.
- **Public Profiles for Studios:** Studios can now create public profiles, showcasing their work, artists, and unique offerings. This feature helps studios attract new clients and build their brand.
- **Public Profiles for Artists:** Individual artists can now have their own public profiles, allowing them to display their portfolio, specialties, and availability. Clients can connect directly with their favorite artists.
- **Availability Settings:** Both artists and studios can now set their availability directly on their profiles. This makes it easier for clients to see when their preferred artists or studios are available for appointments.
- **AI-Based Public Scheduling:** Leveraging AI, DotWork now offers public scheduling based on the availability of artists and studios. This feature ensures clients can book appointments seamlessly, optimizing schedules for both parties.
- **Invoice Generation and Credit Card Payments:** Through a new partnership with Envision Processing, DotWork now supports invoice generation and credit card payments. Studios can easily create invoices and accept payments, streamlining the financial process. (Note: Credit card account creation with Envision Processing is required separately.)

We believe these updates will significantly improve the functionality and user experience of DotWork, making it easier than ever to manage and schedule appointments. Thank you for your continued support!

Feel free to let me know if there's anything else you'd like to add or modify!
